- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Pressetc.
- Width: 1260mm/1400mm
- Printing: 1-5Color Printing
- Highlight: **Textured Surface PVC Membrane Foil,
1260mm PVC Membrane Foil,
Durable Material PVC Membrane Foil**

Product Description

Product Description:

Material:

The primary component of our pvc foil is Polyvinyl Chloride (PVC), a synthetic plastic known for its exceptional strength, flexibility, and ease of processing.

Appearance:

We provide a diverse range of colors, patterns, and textures for our pvc foil. It is designed to replicate the look of real materials like wood, stone, fabric, or metal, at a more affordable price, without compromising on its premium appearance.

Adaptability:

Our foil is suitable for various surfaces, including walls, doors, cabinets, and furniture. It is highly versatile and can be applied in different interior spaces with equal effectiveness.

Durability:

Realsun Deco PVC foil is renowned for its strength and resistance to deterioration. It is exceptionally long-lasting, making it a popular choice for high-traffic areas.

Maintenance:

Once installed, our pvc foil requires minimal upkeep. A quick wipe with a wet cloth once a week is all it needs, making maintenance a breeze.

Economical:

One of the most significant benefits of pvc decorative foil is its affordability compared to natural materials. This allows for the creation of sophisticated aesthetics without the hefty price tag.

Modification:

Manufacturers offer a vast selection of styles and finishes, making it possible to customize to meet project requirements and individual design preferences.

Application:

Decorative pvc foil is commonly used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and more, in both residential and commercial settings.

Applications:

Membrane Press

The Membrane Press is a versatile covering option for a variety of materials including MDF, particle board, wooden board, and fiberboard. It is commonly used for doors, kitchen cabinets, wardrobes, furniture, and more.

Wrapping Profiles

The Wrapping Profiles are designed to cover a wide range of profiles, including wood, aluminum, and PVC. They are commonly used for door frames, window sills, base channels, PVC ceilings, and other applications.

Cold Lamination

Cold Lamination is suitable for a variety of flat panels, such as wood, steel, aluminum, and PVC. It is primarily used for doors and furniture.

Hot Lamination

Hot Lamination is a covering option for PVC, steel, and aluminum panels. It is commonly used for doors, skirting boards, and other applications.

Self Adhesive

All of the PVC films mentioned above can be made into self-adhesive film. This option utilizes PVC decorative film as a base material, which is then attached to a release paper (liner) using an environmentally-friendly acrylic pressure sensitive adhesive. It provides a simple, convenient, and efficient solution for covering furniture and decorations.

Customization:

PVC Membrane Foil Customization Service

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3000m/model

Price: Negotiable

Packaging Details: Pack in roll

Delivery Time: 15-20 days

Payment Terms: T/T 30% down payment, 70% balance before shipment

Packing and Shipping:

Packaging and Shipping

Our PVC Membrane Foil is packaged by roll with foam protection sheet, kraft paper head, and plastic sheet outside to prevent any

damage or contamination during transportation.

For shipping, we offer both domestic and international options. Our domestic shipping is done through reliable carriers and usually takes 3-5 business days to arrive. International shipping may take longer depending on the destination and customs processes.

We understand the importance of timely delivery and strive to ship orders as quickly as possible. However, please note that shipping times may vary due to unforeseen circumstances such as weather or carrier delays.

For bulk orders, we also offer customized packaging and shipping options to meet our customers' specific needs. We can arrange for palletized shipments or expedited delivery upon request.

Once your order has been shipped, you will receive a confirmation email with tracking information so you can monitor the status of your delivery. We take great care in packaging and shipping our products to ensure they arrive in perfect condition and ready for use.

Thank you for choosing our PVC Membrane Foil. We are committed to providing high-quality products and reliable shipping services to our valued customers.
