Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Product Name: Marble PVC Film
- Packing: Pack In Roll With Foam Sheet, Kraft Paper And Plastic Sheet
- Material: PVC
- Color: Marble, Brick, Wood Grain And So On
- Surface: Glossy/ Matte/ Embossed/ Texture/ Soft Touch
- MOQ: 3000m/model
- Length: 100-400m/roll
- Service: OEM, ODM
- Highlight: **Wall Panel PVC Film,**
Wood Grain Pattern PVC Film,
Mirror-Like Shiny Surface PVC Film

Product Description

Product Description:

Detail Description

Marble PVC film is a type of PVC decorative film that features a smooth, mirror-like shiny surface finish. This glossy appearance is achieved through specialized manufacturing processes and surface treatments.

Composition:

Like other PVC decorative films, high gloss PVC film is primarily composed of polyvinyl chloride (PVC) plastic. It may also contain additives such as plasticizers, stabilizers, and pigments to enhance its properties.

Applications:

Marble PVC film is commonly used for:

Furniture veneers and surface overlays

Cabinet and appliance door coverings

Wall coverings and decorative panels

Automotive and marine interior trims

Features and Benefits:

Extremely smooth, reflective high-gloss finish

Durable and scratch-resistant surface

Available in a variety of solid colors and patterns

Easy to clean and maintain

Can be thermoformed or vacuum formed for curved surfaces

Considerations:

Requires careful surface preparation for optimal adhesion

May be more susceptible to showing fingerprints and smudges compared to matte or satin finishes

Some high gloss PVC films may contain higher levels of volatile organic compounds (VOCs)

Overall, the high gloss surface of this PVC decorative film provides a sleek, modern, and reflective aesthetic, making it a popular choice for various interior design and surface finishing applications.

Applications:

The Typical Thickness Ranges for High Gloss PVC Decorative Film

High gloss PVC decorative film is a popular material used in a wide range of applications, from furniture veneers and automotive trim to wall coverings and decorative panels. The thickness of the film is a critical factor in determining its suitability for different purposes, and typically falls into two ranges:

0.1 mm to 0.2 mm

Generally used for applications where a lightweight and flexible material is required, this thinner range of high gloss PVC decorative film is ideal for furniture veneers, cabinet door overlays, or automotive trim. The film is thin and pliable, which makes it easier to wrap or thermoform around edges and corners, giving furniture and other objects a smooth and polished look.

0.3 mm to 0.5 mm

This slightly thicker range of high gloss PVC decorative film provides greater durability and rigidity, making it a better choice for applications that require higher scratch resistance, such as wall coverings, decorative panels, or surfaces that endure more wear and tear. The film is sturdy and can withstand more pressure, making it ideal for flat, smooth surfaces that don't require a lot of bending or shaping.

The specific thickness selection within these ranges depends on the intended application and the desired balance between flexibility, strength, and ease of installation. When selecting high gloss PVC decorative film, it is important to choose a thickness that meets the specific performance requirements of the intended application.

Customization:

Our Marble PVC Film is perfect for those seeking to enhance their living space. It is the ideal material for those looking for a marble-like appearance without the high cost. Our PVC film is commonly used as a decorative material for closet doors, furniture, and more. With our product customization services, we can tailor the Marble PVC Film to meet your specific needs and requirements.

Support and Services:

Our Marble PVC Film is designed to provide a durable and attractive finish for various surfaces. Our product technical support and services include:

Expert advice on installation and maintenance

Technical data sheets and material safety data sheets available upon request

Customized product solutions and specifications

Quality control measures to ensure product consistency and reliability

Responsive customer service and support

Our team is committed to providing comprehensive technical support and services to ensure that our Marble PVC Film meets your expectations and requirements.
